1.5"	\$21.46
2"	\$30.96
3"	\$51.72
4"	\$120.58
6"	\$190.48

AWMC (Average Winter Monthly Consumption: Calculated for each customer by dividing the total water used in the months of November, December, January, and February by four (4). This represents the amount of water for indoor use (Tier 1) and the amount of wastewater treated each month. The AWMC is reset annually on your April statement.

For new customers, until an individual AWMC is established, an average for the customer class is assigned for water and a \$36 per single-family equivalent (SFE) monthly fee is charged for wastewater. *Example: For single-family residential customers, the average AWMC is 5,000 gallons (water available at Tier 1) and the monthly wastewater charge is \$36.*

No retroactive adjustment shall be made to the service charges imposed prior to establishment of the usage rate. The establishment of an AWMC for each utility customer may be appealed in accordance with the procedure identified in Section 13.14.080.

## BULK WATER CUSTOMERS

Description	Charge
Water Service Charge (\$ monthly)	\$9.54
Water Volumetric Charge (\$ per 1,000 gallons)	\$5.07
