

Downtown Castle Rock Strategic Parking Plan

FOR DOWNTOWN CASTLE ROCK

Project Fact Sheet

Photo: Nick Lucey

ABOUT THE PLAN

Downtown Castle Rock is growing and becoming more vibrant. Recent and anticipated public and private investments have created a need to develop a strategic parking plan for the downtown area to meet the growing mobility needs of employers, residents and visitors alike.

In June 2016, the Town contracted with Kimley-Horn and Associates to create a Parking Plan for Downtown. The goal of this study is to evaluate current and future parking needs in Downtown Castle Rock and develop both near-term and long-term strategies to more effectively and efficiently meet those needs.

PROJECT TASKS & TIMING

- June - July ▲ Project Start-Up
- July - Sept ▲ Existing Conditions
- Aug - Sept ▲ Data Collection
- Sept - Oct ▲ Issue Identification and Analysis
- Oct - Nov ▲ Solutions and Recommendations
- November ▲ Draft Parking Strategies
- December ▲ Delivery of Final Report
- Ongoing ▲ Outreach & Engagement
